

Please pack the display as follows.

To prevent damage to panels,

IT IS IMPERATIVE TO HAVE THE PANEL EDGES ALIGNED.

When rolling panels for packing, please follow instructions on the panel wrap. Make sure hangers are staggered and panel edges are aligned and stay aligned when rolling.

← Display when properly packed. Frame goes in the middle of panels secured in cutout in foam in bottom of case. Lights in light bag go over the frame to secure in place in panels. Table top to the side of panels. Mag bars in proper straps on side of case. Case wrap goes into tube.
